Abstract (en)
[origin: US2013292393A1] A consumer product package comprising a tub comprising a base and a perimeter wall defining a cavity, the base comprising at least two projections extending from the base within the cavity, the at least two projections spaced apart from the perimeter wall; and a consumer product disposed within the cavity such that each of the at least two projections define a recessed portion to receive the consumer product, wherein the base comprises a secondary projection having a height different than a height of each of the at least two projections, the secondary projection free of contact from the consumer product.
