Abstract (en)  
[origin: EP2848158A1] A mounting bracket for a slide assembly includes a side wall (42), an end wall (44), at least one installation member (50), a stop (46), and a resilient member (48). The end wall (44) is substantially perpendicular to the side wall (42). The at least one installation member (50) is connected to the end wall (44). The stop (46) is pivotably connected to the side wall (42) and includes a first portion (70) and a middle portion (74) which is connected to the first portion (70). The middle portion (74) has a first end portion (84). The resilient member (48) provides a force to the stop (46) to position the first end portion (84) of the stop (46) to be located corresponding to the end wall (44).
