Abstract (en)
A flow-pack packaging machine comprising: - a support frame (12) including two front uprights (16), an upper front support plate (24) and a lower front support plate (26), said front support plates (24, 26) being oriented vertically and being fixed to said front uprights (16), - an unwinding unit (28) carried by said upper front support plate (24), - a supplying and forming unit (34), a longitudinal welding unit (36) and a cross welding unit (38) carried by said lower front support plate (26), and - an electric control board (44) enclosed in an outer casing (46), wherein the machine (10) has a vertical dividing plane (Pv), coplanar with a front face of said lower front support plate (26) and an upper horizontal plane (Po), tangent to an upper end of said upper front support plate (24), wherein said electric control board (44) is located above said upper horizontal plane (Po) and behind said vertical dividing plane (Pv).
