Abstract (en)
[origin: US2013313272A1] A pour assist device. The pour assist device can include an outlet and a closure receiver proximal the outlet. The pour assist device can include a container support shroud extending from the closure receiver. The container support shroud can have an interior surface sized and dimensioned to envelop at least a part of a container. The container support shroud can include a connecting member proximal the closure receiver. The pour assist device can include a handle extending from the container support shroud.
