Abstract (en)
[origin: WO2013178791A1] The invention relates to a carbon brush (2) with a wear limit indicator function, a current-carrying conductor arranged in a brush body (4) and an indicating conductor (10) which is arranged with a conductor end section (12) in a recess (6) formed in the brush body (4). The conductor end section (12) has exposed individual wires (14) over the entire length of the recess (6), which wires are surrounded by an insulating tamping powder (15) to fix them in the recess (6).
