Abstract (en)
[origin: WO2013186177A1] The present invention relates to a thermal battery, notably for a motor vehicle, comprising a fluidtight housing (1) configured to have passing through it a heat transfer fluid that passes from a fluid inlet (11) to a fluid outlet (12), said housing (1) comprising an outer casing (3) defining an interior space (5) containing capsules of phase-change material (7), said housing (1) further comprising heat generating means (9).
