Abstract (en)  
[origin: WO2013186113A1] The invention relates to a refrigeration appliance (100) with a carrying rail (300). According to the invention, an additional component is connected with a form fit to a carrying rail (300). The invention further relates to an additional component for installation in a refrigeration appliance (100) and to a fastening element (500) for such an additional component.
