Abstract (en)  
[origin: EP2860298A1] The present application discloses a laundry processing apparatus including: a storage tub (200) for storing laundry; a steam generator (420) for generating steam to be sprayed into the storage tub (200); a heater (425) for heating the steam generator (420); a nozzle (352) for spraying the steam into the storage tub (200); and a guide pipe (340) for guiding the steam from the steam generator (420) to the nozzle (352). The guide pipe (340) includes a branching pipe (351) with a trunk pipe (354) into which the steam flows, a first pipe (353) leading to the nozzle (352), and a second pipe (356) different from the first pipe (353). The first pipe (353) includes a portion disposed above a bifurcation of the branching pipe (351).
