Abstract (en)

The invention relates to a sauna, comprising in its service position a ceiling (16), a rear wall (14), a first side wall (18), a second side wall (18'), a front wall (26), and at least one door (24), which sauna (10) has a service position (100) and a storage position (200), of which the storage position (200) is substantially smaller than the said service position (100), which sauna (10) includes - a body part (12), comprising at least a fixed rear wall (14) and a fixed part (19) belonging to the first side wall (18), - a retractable part (20), which includes at least a continuation (22) belonging to the first side wall (18), pivoted to the fixed part (19) of the first side wall (18), and in which sauna (10) the retractable part (20) is arranged to be at least partially retracted inside the body part (12) when the sauna is in the storage position (200). The retractable part (20) includes in addition part of the front wall (26) permanently attached to the continuation (22) of the first side wall (18), thus forming a unified rotating corner piece (28).
