Abstract (en)

[origin: EP2862985A2] An insulated roof edge solution for flat roofs or concealed gutters with the characteristic that it can be used to construct roof edges without a cold bridge. The product incorporates reinforced strips for a structural link between the product and the roof construction, whether or not with the corresponding connection plate. The product also includes a provision to seal the air cavity. The product also integrates the possibility of reinforcing the outer leaf.
