Abstract (en)

It is described a surface treatment device (1) comprising a holder (2) for hand-held or powered tools, an mounting plate (3) having an abrasive medium (4), and mounting means (5) between the holder (2) and the mounting plate (3). Furthermore the device (1) is provided with detachable mounting means (6, 6-1, 6-2) between the mounting plate (3) and the abrasive medium (4). The latter means may be formed by corresponding pins (6-1) and apertures (6-2), and/or attracting magnetic materials. In one embodiment the pins (6-1) are hollow and expanable in width by means of pressure.
