Abstract (en)  
[origin: WO2014001566A1] The invention relates to a portion capsule (1) for producing a beverage, comprising a base element (2) which comprises a cavity (3) in which a beverage raw material is provided and which is sealed by a membrane (4) which is secured to the base element (2). Said base element is provided with an identification (7) which allows the respective portion capsule to be individualized. The invention further relates to a method for producing a portion capsule and to the use of the portion capsule for producing a beverage.
