Abstract (en)

[origin: EP2873336A1] The present invention relates in a first aspect to a protective garment manufactured from a cut and/or slash resistant fabric, wherein the protective garment is locally provided with two or more attachment elements on zones in need of protection, which attachment elements are suitable for removably attaching a stab resistant protective pad to the protective garment. In a second aspect, the present invention relates to a kit of a protective garment with one or more stab resistant protective pads.
