Abstract (en)

A boot (2) excellently comfortable to wear is provided. The boot (2) has a sole (4) and an upper (6). The upper (6) has an inner layer (11) and an outer layer (12). The inner layer (11) contains a sponge layer (20). The sponge layer (20) is a polymer molded product containing closed cells. The outer layer (12) is a polymer molded product that does not contain a cell. The inner layer (11) is partially covered with the outer layer (12). The upper (6) has a first exposed portion (14) and a second exposed portion (16). The first exposed portion (14) is a region which corresponds to a front side of an ankle of a wearer and is a region where the inner layer (11) is exposed. The second exposed portion (16) is a region which corresponds to a calf of the wearer and is a region where the inner layer (11) is exposed.
