Abstract (en)

[origin: WO2014020006A1] A fastening element (10) for mounting solar modules or solar collectors on a roof, in particular a pitched roof, has a base part (12), which can be attached to the roof, and a hook part (14), which can be attached to the base part (12) by means of a pivoting/latching mechanism, wherein the pivoting/latching mechanism comprises a connecting hook (18), which can be suspended from the base part (12), and also a latching closure (20), said connecting hook and latching closure being spaced apart from one another in the longitudinal direction (L) of the hook part (14).
