Abstract (en)
[origin: WO2014019906A1] The invention relates to an electrical contact, particularly designed as a press-in pin (16) for a circuit carrier (10). The press-in pin comprises at least one press-in zone (14) at which conductor traces (30) can be contacted. The press-in pin (16) is either made of solid aluminium material (36) or contains at least one aluminium material section (40) or is made of solid aluminium material (36, 46) with a copper jacket coating (48).
