Abstract (en)

[origin: EP2881520A1] The invention relates to a tile strip, comprising: - a base strip of substantially L-shaped cross-section, wherein the base strip has a bottom surface and an upright surface; - a decorative strip of substantially U-shaped cross-section arranged over the upright surface of the base strip, wherein the height of the upright surface of the base strip and that of the decorative strip taper in wedge-like manner in longitudinal direction.
