Abstract (en)

[origin: WO2014023391A1] The invention relates to a method for warning a user (3) of a motor vehicle (1) of a risk of collision (5) of the motor vehicle (1) with an object (7), comprising: determining the risk of collision (5). In order to make better use of resources already provided in the motor vehicle, the user (3) is warned of the risk of collision (5) by means of an interior illumination device (11) provided for illumination of an internal space (9) in the motor vehicle (1).
