Abstract (en)

[origin: EP2395151A1] The poling board arrangement (2) comprises a base board and two extension boards (4,5) which are arranged before the base board. The extension boards are moved crosswise to the construction-travel direction relative to the base board. An adjusted deflector unit (9) is mounted at the base board relative to the extension boards. The adjusting movement of the deflector unit is coupled to the movement of the extension boards.
