Abstract (en)
[origin: WO2014029858A1] The invention relates to a printing method and a printing device for applying an ink to at least one print substrate, wherein the printing device (1) comprises at least one printing module (2) and the printing module (2) comprises at least one printing head (3). The printing device (1) further comprises at least one device for producing a flow of fluid, wherein a flow of fluid produced by means of the at least one device for producing a flow of fluid can be guided along at least one outer side of the printing module (2).
