Abstract (en)

[origin: WO2013066275A1] The subject of the invention is a kit for correcting and preventing ingrown nails, particularly on the feet, where the nail most frequently affected is on the big toe. The kit that is the subject of the invention comprises a disinfectant (4) and a specially designed plaster comprising a porous adhesive tape (2) with a two-sided, non-adhesive foil on one end (3). The kit is intended for the conservative, non-surgical treatment of ingrown nails, and for the prevention thereof..
