Abstract (en)
[origin: WO2014067809A1] A switchgear assembly switchpanel has a busbar section running in the direction of a transverse axis. The busbar section is used for connecting two switchgear assembly switchpanels, wherein the busbar section has a plurality of phase conductor housings (11a, 11b) extending in the direction of the transverse axis for accommodating phase conductors. At least one of the phase conductor housings (11a, 11b) is equipped with an interface, wherein at least one of the interfaces of a phase conductor housing (11a, 11b) is connected to a Y housing module (9, 9a).
