Abstract (en)

[origin: WO2014032913A1] A method for playing back media data comprises the steps of: - receiving media data in a receive buffer (20a, 20b); - determining whether the receive buffer (20a, 20b) is sufficiently filled; - reducing the playback speed over a period (56) until the receive buffer (20a, 20b) is sufficiently filled, and - playing back the media data at the reduced playback speed; wherein the reduced playback speed has a speed profile (50) having at least one non-linear section (52, 54).
