Abstract (en)

[origin: EP2248977A2] The guide mounting (3) has a guide component housing and a sliding element (4) which is supported in the guide component housing in a sliding manner. A snap-in tongue (22) is arranged on the sliding element, which is locked with a locking element (15) of the guide member housing. The locking element runs perpendicular to the sliding direction of the sliding element. An independent claim is also included for a sliding door for a sliding door furniture.
