Abstract (en)
[origin: WO2014039791A1] An open-ended container having a pair of opposed sidewalls that are formed from a first sidewall member having a slot and a second sidewall member comprising an extending tab that extends through the slot of the first sidewall member. A blank of a single board that is stamped and folding into a container, and uses less board material by weight than a conventional container box. The open-ended container can have a pair of grip openings in opposed sidewalls for lifting and carrying.
