Abstract (en)

[origin: EP2896890A1] A multi-part suspension device (1) for a kitchen appliance (2) to be fixed to a wall (4), comprising a mounting rail (3) comprising an at least one first fixation point (10), preferably at least two first fixation points (10), more preferably two first fixation points (10), for fixing the mounting rail (3) horizontally to the wall (4), and at least one suspension profile (5), preferably one suspension profile (5), wherein the at least one suspension profile (5) is attached to the kitchen appliance (2), preferably horizontally, wherein the at least one suspension profile (5) comprises at least one engaging means (6) for engaging the at least one suspension profile (5) with the mounting rail (3), preferably such that in an engaged position a main plane (23) of the suspension profile (5) is arranged parallel to a main plane (12) of the mounting rail (3) and, preferably to the wall (4), and the at least one suspension profile (5) is movable along at least a part of a first longitudinal edge (21) of the mounting rail (3).
