Abstract (en)

[origin: EP2899600A2] The present invention provides a time adjusting method and system for a time piece (such as a wristwatch (10)), which utilizes a motion sensor (16) disposed on the wristwatch (10) to detect a hand gesture made by a user in the front of the wristwatch (10). In such a manner, adjusting the position of an indicator (14) on the wristwatch (10) is realized, and thereby carrying out the time adjustment.
