Abstract (en)
[origin: WO2014048884A1] The invention relates to a shower head. According to the invention, the shower head comprises a water guide, which conducts supplied shower water onto at least one dripping surface (5) pointing substantially downward in the direction of gravity aided by adhesive force, and a dripping structure (6) on the dripping surface, through which dripping structure shower water (3) guided to the dripping surface drips from the dripping surface.
