Abstract (en)  
[origin: WO2014048974A1] A motor vehicle headlamp support bracket (140) comprising: means (142) for coupling the bracket to a vehicle body structure; means (144) for coupling the bracket to a vehicle headlamp assembly; and means (146) for coupling the bracket to a vehicle front bumper, wherein the bracket is configured to support the headlamp and bumper in a substantially fixed position relative to the vehicle body structure. Embodiments of the present invention enable alignment of the headlamp assembly and bumper with respect to one another and the vehicle body structure to be accomplished in a convenient and relatively low cost manner.
