Abstract (en)

A structure (100) for securing injectors includes a first clamp (10) and a second clamp (20) arranged to face each other with a plurality of injectors (1,2) interposed therebetween, a pinching and holding member (40) arranged between two adjacent ones of the injectors (1, 2) to pinch and hold the first clamp (10) and the second clamp (20), and a fastening member (45) that fastens the pinching and holding member (40) to the top of a cylinder head. Consequently, space can be saved in the structure for securing injectors.
