Abstract (en)
[origin: WO2014053784A1] The invention relates to a composite lid (10) intended for plugging containers (36) having an opening (40), said composite cover comprising (i) a cork element (12) having a plugging portion (16) and a gripping portion (18) that can be used to insert the plugging portion into the opening (40) and (ii) an add-on insulation portion (26) covering the plugging portion (16). The add-on insulation element (26) is made from an artificial material based on cellulose fibres.
