Abstract (en)
[origin: WO2014056764A1] A pull-out guide (1, 1', 1", 1'''), in particular for domestic appliances or furniture, comprises at least three rails (2, 3, 4) that are mounted so as to be movable relative to each other, one rail (2) being securable to a body and another rail (4) being connectible to a pull-out element, and a detent mechanism (10) for locking a first rail (4) in a predetermined position relative to a second rail (3), a locking mechanism (20, 40, 50, 70, 70') being provided for locking the second rail (3) relative to a third rail (2) in the predetermined position against movement. The pull-out guide according to the invention can thus be moved according to a defined sequence control and with exact detent forces.
