Abstract (en)

[origin: WO2014060312A1] The invention relates to a solid textile care composition comprising a water-soluble carrier, a diol which is liquid at 23°C, a textile care compound and a perfume, wherein the water-soluble carrier is in particulate form and at least some has been contacted with the diol which is liquid at 23°C and the perfume, and the textile care compound is present at least partly on the contacted regions or the contacted regions and the non-contacted regions. The invention also relates to textile care products for washing or cleaning, comprising the solid textile care compositions.
