Abstract (en)

The invention relates to a temperature controlled display cabinet (10) comprising frame parts (11, 12, 13) and side walls (15), which cabinet (10) has at least one door (16) or an opening on front and/or back side of the cabinet (10). The walls (15) and doors (16) of the temperature controlled display cabinet (10) are transparent material and a side duct (23) for temperature controlled gas flow (S) is located at one of the side walls (15) of the temperature controlled display cabinet (10) and the side duct (23) is formed by a duct wall structure (25) of transparent material.
