Abstract (en)  
[origin: EP2908046A1] Outdoor lighting fixture, comprising a housing (1) intended to be mounted in a recess of a structure or supporting surface, which has a plurality of LEDs that are connected to at least one control unit. The housing (1) comprises a peripheral frame (2), frontally closed by a translucent plate (3) and at its rear end by a rear plate (4) having a plurality of openings (41) that are suitable for the assembly and fixing of removable racks (5), on which sealed lighting modules (6) are mounted. The racks (5) have heat sinks (53). Each lighting module (6) comprises at least one row of LEDs (61) connected to a printed circuit frontally covered by lenses (62) of complex surface that are suitable for guiding the light emitted by the LEDs (61) towards a certain direction.
