Abstract (en)

[origin: WO2014070904A1] Golf club heads (102) are releasably engaged with shafts (106) so that the club heads and shafts can be readily interchanged and/or so that the shaft position with respect to the club head can be readily changed. Assemblies for connecting the club head and shaft include a shaft adapter (200), a hosel adapter (300), indicators (220, 320) on each adapter and a securing system (408). They furthermore may include a hosel ring (500). The club head and shaft may be changed by releasing the securing system and exchanging the original parts with different parts.
