Abstract (en)

[origin: EP2201864A2] The device has a guidance unit (1) for guidance of pull out furniture. A supporting unit is provided, which has a supporting element arranged at a center rail or a pull out rail. The supporting element is positioned in ejection direction of the movable pull out furniture at a front area of the respective rails. The supporting element is attached to a pull out rail, where supporting element is mounted at the center rail.
