Abstract (en)
Tray with cavities for strawberries intended to be disposed in the interior of a box for its storage and transport, and which is made up of a sheet (1) which has a plurality of compartments (2) where each compartment is intended to receive a strawberry. The compartments (2) comprise a first depression (4) which is configured to receive the sepal of the strawberry, a second concentric depression (5) lower than the first depression (4) and configured to receive the pedicle of the strawberry, and a protrusion (6) that protrudes upwards from the first depression (4) and which is configured to support the thalamus of the strawberry.
