Abstract (en)
[origin: EP2918729A1] A foundation base (11) used as a gravity-based structure made from reinforced concrete using for this purpose a submersible structure equipped with sliding formwork to confine the concrete and to give it the form of a quasi-pyramidal caisson (12), the section of which decreases as the height of the foundation base (11) increases and which includes internal cells (31) to increase the buoyancy of the foundation base (11), constructed on a structure (51) for manufacture of caissons.
