Abstract (en)

[origin: WO2014076597A2] The present invention relates to a filtering element and to a smoke mouthpiece, in particular a mouthpiece for a nargile, adapted to house said filtering element. The filtering element 1 comprises an antiviral and anticarcinogenic fabric 2 and a peripheral support 3, therefore the filtering element can be defined as an antiviral and/or anticarcinogenic filtering element. Furthermore, the present invention refers to a mouthpiece 4 preferably a mouthpiece for a nargile adapted to house said at least one antiviral and/or anticarcinogenic filtering element 1. Said mouthpiece is in particular a sectional mouthpiece. Furthermore, the present invention also relates to an accessory device 13 comprising the antiviral and/or anticarcinogenic filtering element 1 and applicable to the smoke mouthpiece 4, and to an antiviral and anticarcinogenic pipe for a nargile applicable to the smoke mouthpiece 4 said smoke mouthpiece potentially being connected to the accessory device 13.
