Abstract (en)

[origin: WO2014083502A1] An apparatus for moving packs of bags, of the type with needles for supporting the packs, comprising - a station (13) for forming the packs (P) of bags (S), where each pack is inserted, at at least one corresponding hole, on a support needle (14) arranged for forming the packs, wherein said needle (14) is arranged vertical or almost vertical, - an unloading station (15) for unloading the formed packs. The apparatus is characterized by comprising overturning means (18) for overturning said needles (18) moving them from said vertical or almost vertical arrangement to a horizontal or almost horizontal arrangement to allow the packs of bags to be removed, and removing means (19) for removing said packs from said needles (14) in said horizontal or almost horizontal arrangement.
