Abstract (en)

[origin: EP2927363A1] The present application in particular relates to a method of conducting a drying cycle for drying wet laundry (7) in a tumble drum (5) of a laundry treating machine (1). The method comprises controlling the operation of the drying cycle in dependence of at least one of an electrical and electromechanical operational parameter of the laundry treating machine, changing together with laundry humidity of laundry (3) during the drying cycle.
