Abstract (en)

[origin: WO2014086483A1] The invention relates to a method for extending strands of a person's own hair (E) by means of foreign hair strands (1) with the aid of an external shrinking sleeve (3) which surrounds the hair joining point and in which the strands of a person's own hair, the foreign hair strands and a glue (2) are located, wherein after the shrinkage of the shrinking sleeve (3) said sleeve is removed from the connection point.
