Abstract (en)
[origin: WO2014086467A1] The invention relates to a portable lamp (1) comprising a lamp housing (2) and a handle (3) disposed on the lamp housing (2). In the lamp housing (2) light outlet openings (4, 5) are formed, each of which light outlet opening (4, 5) is associated with at least one light source (6, 7) and a lens unit (8) for light focussing in the interior of the housing (9). The respective light source (6, 7) is at least one LED. In this way a hand lamp is obtained having a compact shape and providing searchlight and working light in one hand lamp, wherein the searchlight and working light each have a separate light outlet opening and a separate light source.
