Abstract (en)

[origin: WO2014089171A1] A system for renting vehicles is disclosed. The system can comprise a vehicle access communicator ("V AC") capable of interfacing with one or more functions of a rental vehicle and a user provided portable electronic device. The V AC can control various functions of the vehicle including, but not limited to, the door locks and/or enabling/disabling the vehicle. The V AC can also monitor various functions of the vehicle including, but not limited to, the fuel level and/or the odometer readings.
