Abstract (en)

[origin: WO2014090350A2] The invention concerns a cleaning apparatus for cleaning floors and/or surfaces, comprising a container (1, 1', 1", 1''') for holding a cleaning fluid (2), a discharge device (3, 3', 3", 3''') for discharging the cleaning fluid (2) onto a floor and/or surface to be cleaned, and a heating device (4, 4', 4", 4''') for heating and/or tempering and/or evaporating the cleaning fluid (2). In the light of the object of designing and developing a cleaning apparatus of the initially mentioned type such that it can easily be supplied with energy for heating and/or tempering and/or evaporating the cleaning fluid, the apparatus is characterized in that it can be operated cordlessly.
