Abstract (en)

[origin: WO2014092579A1] The present invention relates to a method for mining or extraction of materials from a substrate, comprising earth, rock or ore, the method comprising steps for: -charging the materials present in the substrate, preferably by applying a triboelectric charge, -applying an electrostatic force to the charged materials for inducing transport of the charged materials through the substrate, -preferably repeating the above steps in an alternating manner.
