Abstract (en)  
[origin: WO2014090421A1] The present invention relates to a method for printing a bag with a print, which bag is filled with a detergent or cleaning agent and is made from a water-soluble or water-dispersible film, wherein the printing of the bag is carried out by means of an inking-pad printing process; and to a method for producing film bags of this type; and to the film bags which are produced in this way.
