Abstract (en)
[origin: WO2014090655A1] Disclosed is a method for electronically managing products (110-113) that are part of an inventory of products in at least one household appliance (401, 402). In said method, data (120 to 123) associated with the products (110-113) is acquired and stored. When purchasing the products (110-113), the associated data (120-123) is acquired, and the acquired data (120-123) is stored in a central memory (350) associated with the at least one household appliance (401, 402).
