Abstract (en)

The invention relates to a household washing appliance, such as a washing machine (1), a washing/drying machine, a dishwasher or the like, equipped with a steam generator (15) which is used for the steps of washing and drying the load, such as laundry and crockery; the household appliance is also equipped with an external takeoff that allows connecting the steam generator to the outside, so that the produced steam can also be used for other household activities, such as ironing, cleaning, disinfecting, and the like.
